

SUMMARY

With over 10 years of experience as an SAP ABAP Developer, I bring a proven track record in developing and optimizing SAP solutions on the S/4 HANA platform. My expertise in ERP systems and ability to lead successful project implementations have significantly improved business processes and efficiency. Recognized for my strategic approach and technical programming skills, I am eager to contribute to new and transformative projects.

EXPERIENCE

Senior SAP ABAP Developer

Deloitte

-  08/2019 - Present  Washington, D.C.
- Led a team of 5 developers in creating customized SAP S/4 HANA solutions for finance and logistics modules, resulting in a 20% increase in processing efficiency
 - Authored and maintained over 500,000 lines of ABAP code across various SAP systems, enhancing system stability and performance
 - Spearheaded the integration of SAP S/4 HANA with third-party applications, achieving seamless data flow and expanding functional capabilities
 - Implemented complex ALV reports and SmartForms that improved user experience and reporting capabilities for over 10,000 end-users
 - Optimized existing SAP ABAP programs using SQL traces and runtime analysis, reducing average transaction times by 35%
 - Mentored junior developers on best practices, coding standards, and advanced technical issues in SAP ABAP and HANA technologies

SAP ABAP Consultant

IBM

-  06/2016 - 07/2019  Washington, D.C.
- Developed and customized SAP modules for 3 major clients within the public sector, streamlining their operations through efficient code
 - Managed cross-functional teams in deploying SAP HANA migrations for existing ERP systems, enhancing data analytics capabilities
 - Conducted thorough debugging and troubleshooting for critical SAP applications, minimizing system downtime
 - Collaborated with the functional team to translate business requirements into technical specifications for SAP system enhancements
 - Enhanced user experiences by developing interactive SAP Fiori applications for real-time data monitoring and decision-making

SAP ABAP Programmer

Accenture

-  01/2013 - 05/2016  Washington, D.C.
- Designed and implemented ABAP programs for custom report generation, improving business intelligence outputs for client stakeholders
 - Collaborated with business analysts to understand user requirements, culminating in the timely delivery of high-quality SAP solutions
 - Assisted in the successful go-live of the SAP S/4 HANA project for a major retail client, resulting in enhanced customer order fulfillment processes
 - Engaged in post-implementation support and optimization tasks, ensuring continuous system performance improvements

EDUCATION

Master's Degree in Information Technology

George Washington University

 01/2010 - 01/2012  Washington, D.C.

Bachelor's Degree in Computer Science

University of Maryland

 01/2006 - 01/2010  College Park, MD

PROJECTS

Custom ERP Enhancement Tool

Developed a tool for streamlining ERP system data management tasks, simplifying user workflows. Source available at github.com/AnthonyHarris/ERP_Enhancement

Real-time Inventory Management Module

Created a module to integrate with S/4 HANA for optimizing inventory tracking across multiple warehouses. Source at github.com/AnthonyHarris/Inventory-Management

KEY ACHIEVEMENTS

Leadership in IT Project Management

Led a team to deliver an enterprise-wide software upgrade on time and 10% under budget.

Innovative Coding Solutions Award

Received an award for a complex problem-solving algorithm that reduced processing time by 40%.

Record-Breaking System Implementation

Headed the fastest SAP system upgrade project for a Fortune 500 company, completed in just 6 months.

Exceptional Client Satisfaction

Achieved a 98% client satisfaction rating through consistent delivery of high-quality solutions and services.
